

Your Trusted Partner in Herd Health  
& Export Protocol Diagnostics

Animal Health. Animal Welfare.  
Biosecurity. Supporting Market Access.  
Ensuring Confidence.

At Veterinary Laboratory Services (VLS), we deliver precise, NATA-accredited diagnostics that protect the health of Australia's livestock and support the integrity of live animal exports. Our veterinary diagnostic laboratory helps producers, veterinarians, and exporters make informed, confident, and regulatory decisions daily.

ACCREDITATION AND COMPLIANCE

# Why Livestock Producers, Veterinarians and Exporters Choose VLS

## Expert Herd Health Screening

Comprehensive diagnostic programs for disease monitoring, surveillance, and biosecurity. Early detection keeps your herd healthy and productive.

## NATA Export-Certified Testing for Market Access

VLS provides a NATA-accredited laboratory and tests specifically aligned for testing that meets Australian and International export certification requirements, ensuring smooth and compliant shipments.

## Fast & Reliable Turnaround with Digital ID Reporting

Comprehensive diagnostic programs for disease monitoring, surveillance, and biosecurity. Swift diagnostic reporting enables fast management decisions.

## NATA (ISO 17025) - Compliant Quality Management Systems

Tests are performed under strict international quality standards - delivering dependable, traceable, and defensible results.

## Advanced Testing Capabilities

### Serology • Microbiology • Molecular • Parasitology

Our specialised VLS laboratory is equipped with the latest diagnostic technologies and staffed by expert veterinary scientists to support large volume high-throughput testing.

## Local Expertise, National Reach

Proudly Australian-owned and operated. VLS combines regional understanding with national laboratory capacity.

## Our Competitive Edge

- Accredited, export-compliant diagnostic testing recognised by industry regulators
- Tailored herd health monitoring programs to prevent disease and support biosecurity
- Continuous investment in diagnostic innovation and laboratory automation
- Responsive client services and dedicated technical support from diagnostic experts

## Partner with VLS Today

Join leading livestock producers, veterinarians, and exporters who trust VLS for fast, accurate, and compliant animal health diagnostics.
